

CRUSHER SPARES

WEAR RESISTANT CASTING SOLUTIONS

CRUSHING & SCREENING EQUIPMENT

Crusher Spares (Australia) now stocking full range of modern crushing and screening equipment. Supplied as a bare unit or complete with support structures, (fixed plant, mobile modular plant or track mounted). We offer quality cost effective plant and equipment to suit all budgets and requirements from 50tph up to 1500tph.

Our highly skilled staff can help with plant design and recommendations, whether it be upgrading machinery in an existing plant, or designing a complete new turnkey crushing plant.

PEV600X900 SINGLE TOGGLE JAW CRUSHER				IN STOCK \$85,000+GST	
<p>PEV- series single toggle jaw crushers are an overhead eccentric, single toggle jaw crusher. Reliable and efficient design suitable for all primary mining, quarry and recycling applications.</p> <p>Key features include: high production, high reduction ratio, bolted main frame design, reversible jaw plates, easy maintenance, hydraulic and manual adjustment.</p>					
MODEL/SIZE	POWER	Feed opening	CSS	CAPACITY	WEIGHT
PEV600X900	90 KW	600X900mm	60-175mm	120-455tph	12500KG

PYY200 SINGLE CYLINDER HYDRAULIC CONE CRUSHER				IN STOCK \$175,000+GST	
<p>PYY- series single cylinder hydraulic cone crusher is a highly versatile crusher design suitable for secondary or tertiary crushing in quarry and mining applications. Crusher is characterized by high tonnage output, compact structure design, low operating and maintenance costs, with a wide range of applications and high utilization rate.</p>					
MODEL/SIZE	POWER	Feed opening	CSS	CAPACITY	WEIGHT
PYY200	160KW	32mm-180mm	6mm-35mm	65-200tph	10600KG

3YK1860 3 DECK VIBRATING SCREEN				IN STOCK \$65,000+GST	
<p>YK- series vibrating screen is a basic robust design with the screen bed connected by bolts to effectively avoid welding stress. The support structure, walkways and hand rails are also bolted and designed for easy assembly and disassembly for maintenance and transport. Screens available in sizes 1500X5000mm up to 2500X7000mm</p>					
MODEL/SIZE	POWER	WIDTH X LENGTH	CAPACITY	WEIGHT	
3KY1860	30kw	1800mm X 6000mm	50-400tph	8500KG	

ZSW9538 VIBRATING FEEDER				IN STOCK \$45,000+GST	
<p>ZSW- series vibrating feeder is featured by stable vibration, reliable operation and long service life. The vibrating feeder is driven by a twin eccentric shaft mechanism displaying excellent performance, low noise, reduced power consumption and easy adjustment. Feeders available in sizes from 3800X950mm to 6000X2000mm</p>					
MODEL/SIZE	POWER	WIDTH X LENGTH	CAPACITY	WEIGHT	
ZSW9538	18.5kw	3800mm X 950mm	100-200tph	4080KG
